## TIPS FROM THE PROS:

Aerification of greens:

MGC will be completing this process on June 22<sup>nd</sup> and 23<sup>rd</sup>.

Aerification is an essential turf maintenance practice that relieves soil compaction, manages thatch (decomposing roots/stems), and improves air and water movement. By punching holes and filling them with topdressing sand, superintendents stimulate deep root growth and keep putting surfaces firm, healthy, and resilient to heavy traffic.

MGC Professional Staff

## UPCOMING MEMBER EVENTS:
